

Tuesday, July 12, 2005

Hi there,

The reason I've not stopped by to visit you in a while is because nothing has slowed down at all for me. As I might have said to you before, much like John Belushi or Elwood in "[The Blue's Brothers](#)," I AM here on a Mission from God.

Some people understand this and others just ignore it, while I accept it as the continuous coincidence of God Expressed in my life. My death experience defined my relationship with Jesus Christ, The True Way. [This understanding can be bit strong and overbearing in fact](#). Therefore, I need to be a lot more direct and clear about this with everyone. Explaining it conceptually is fundamental before I can patent demonstration methods.

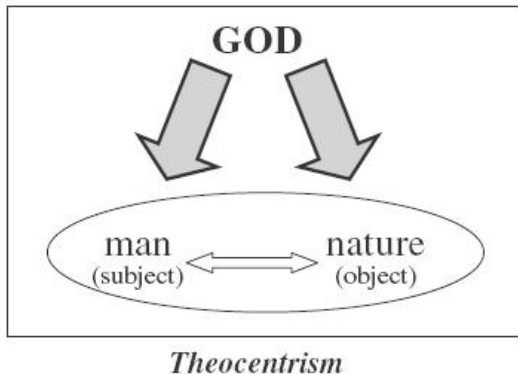

FIGURE 2: Theocentric Metaphysic

In this light I would like to inform you that my 1<sup>st</sup> patent is done, and available [on Ebay now](#), pending offers from manufacturing/sales firms. Further, I've been employed to assist in editing an [academic journal](#) on campus next year, where the 1<sup>st</sup> article inspired me further: [GETTING RIGHT WITH NATURE Anthropocentrism, Ecocentrism, and Theocentrism](#) by Andrew J. Hoffman and Lloyd E. Sandelands of University of Michigan.

As you know I've got to develop my own research to demonstrate the understanding I have developed through [my experiences with God](#). This has evolved into the [DNA Consciousness Theories](#) which I've been exploring with [various professors](#) on campus already. However, this new editing position gives me added resources to more fully study the current literature and publish specifically for bringing these theories to the forefront of modern scientific exploration.

Please keep these ideals in mind and feel free to direct any spontaneous insights in this regard to me immediately at BSN 3215; Telephone: 813-974-1757 [eric@starsusa.org](mailto:eric@starsusa.org)

Thank you very much

[Eric R Weaver](#)
