

Adobe® Customer Support Test Files

TouchUp Tools

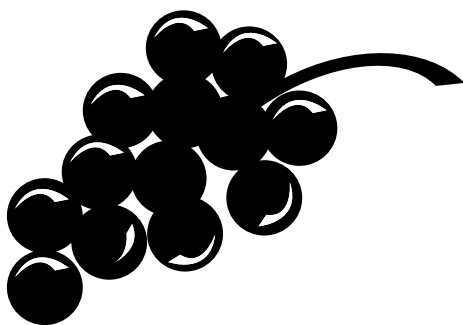

You can use this file to test the TouchUp Text and TouchUp Image tools.

Choose an image editor by visiting Edit > Preferences > TouchUp (Windows)
or Acrobat > Preferences > TouchUp (Mac).

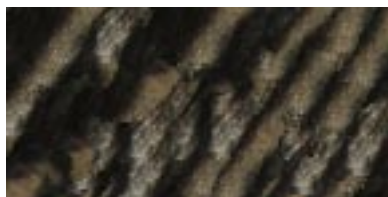

To edit the raster graphic or vector image, right-click the image and choose Edit Image.

The font used in this document is Times New Roman which was embedded during PDF creation. To view the font attributes, change the font or unembed the font, choose the TouchUp Text tool, highlight the text you want to change (one line at a time). Then right-click the text and choose Properties.

*For more information on
using the TouchUp Tools
see the Adobe® Acrobat®
Help.*
